

ISHU KUMAR

Technical Lead — AI & Cloud Automation

LinkedIn | ishu.kumars@gmail.com | GitHub | +91-8574964548

Certifications

- AI Agents and Agentic AI with Python & Generative AI
- MCP: Build Rich-Context AI Apps with Anthropic
- AWS - Serverless
- CloudBolt - Certified CMP Engineer
- OWASP - Top 10:2021 in Python
- Cutshort Certified Python - Advanced

Skills

Programming: Python, JavaScript, C/C++, PHP, Shell, Bash, PowerShell

Cloud Platforms: AWS, Kubernetes, GCP, IaC (Terraform, CloudFormation), Azure, OpenStack, VMware, Docker, CloudBolt CMP, CI/CD

AI & LLM Tools: OpenAI, Gemini, Anthropic, HuggingFace, Grok, Flowise, LangFlow, RAG, Generative AI

Databases: Amazon Redshift, Oracle Database, PostgreSQL, MySQL, SQLite

Frameworks & Libraries: Django, DRF, FastAPI, Flask, Redis, WebSocket, PySpark, Pandas, NumPy

Tools & Collaboration: Git, GitLab, Jira, Agile, API Design, Payment Integration

Open Source

Contributions

Term Code: Enhanced Claude code generation and integration with open-source services.

Oracle AI Optimizer: Contributed to MCP implementation enabling dynamic AI context management.

Education

M.Tech, Computer Science & Engineering, Central University of Rajasthan, CGPA: 7.75/10 Jul 2017 – May 2019

B.Tech, Civil Engineering, Rajkiya Engineering College, Bijnor Jul 2011 – May 2015

Profile

Technical Lead with 6+ years architecting Agentic AI systems and Cloud Automation platforms. Expert in building autonomous workflows using the Model Context Protocol (MCP) and optimizing multi-cloud infrastructure. Proven track record of reducing operational overhead by 90% through scalable SaaS engineering.

Professional Experience

AnnexCloud (ImpplyCloud)

October 2025 – Present

Technical Lead

- Architecting a scalable **multi-tenant E-commerce SaaS** on Azure, leveraging event-driven serverless patterns (Functions, Service Bus) for high availability.
- Establishing comprehensive observability standards using **Grafana Loki**, ensuring real-time reliability for distributed microservices.
- Leading and mentoring a squad of 6 engineers to drive architectural best practices and accelerate delivery velocity.

Oracle India Private Limited

May 2025 – October 2025

Senior Software Developer

- Designed and deployed AI-first applications.
- Led full implementation of Model Context Protocol (MCP) in Oracle AI Optimizer, enabling dynamic context management and real-time adaptability.

CloudBolt Software – Kumolus India

Dec 2021 – Mar 2025

Senior Software Engineer

- Developed scalable SaaS features with Python, Django, DRF, PostgreSQL; improved system stability by 30%.
- Implemented CI/CD pipelines and DevOps practices across AWS, Azure, OpenStack, VMware, and GCP and improved product delivery reliability by 20% through cross-functional collaboration..
- Led cloud infrastructure design with IaC (Terraform, CloudFormation), enhancing scalability by 25%.

Deloitte

Apr 2021 – Nov 2021

Analyst

- Automated 50% of manual tasks using Python and VB scripts, cutting processing time by 90% and boosting productivity 10x.
- Reduced analysis time by 40% using PySpark and Amazon Redshift.

Key Projects

AI: AI VM Analyzer, AI Optimizer, Second Brain, AI Resume Analyzer, AI Order Placement & Store Manager

Non-AI: Multi-tenancy Hospital & Inventory Management Systems, JUST asynchronous system, SeeDJ, DocuBank, Energe Social Media Platform, Cloud-Bolt

Other Experience

- **Skysoft IT Services Pvt. Ltd., Software Developer (Oct 2019 – Sep 2020):** Developed internal tools and Python backend components.
- **Root Info Solutions, Associate Software Engineer (Sep 2020 – Apr 2021):** Maintained B2B systems, worked on cloud deployment and integration tasks.
